

# LIFE GROUP DISCUSSION QUESTIONS

1. When you think of community what are some experiences you have had (both good and/or bad)?
2. In her sermon, Victoria framed community as a spiritual discipline. Is that a new way of thinking about community for you? And if so how does it change how you view community?
3. The three points to get better at community were:
  - a) figure out what works for you
  - b) use grace like salt
  - c) use conflict like pepper(lots of salt, a little bit of pepper)  
Which area do you feel strongest in? Explain.
4. Which area do feel you need the most improvement in? Explain.
5. From point “a” above, do you know what works for you in regards to engaging in and building community? Are you doing it?
6. Often, people who withdraw from community have experienced wounding in those communities. If you relate to that, and feel comfortable, share your experience, and as a group pray for healing over those wounds.
7. CHALLENGE: Over the next weeks and months, if it’s an area you want to grow in, make a point of checking in on each other on how you are engaging in/growing in community.
